Formtek Extensions for Alfresco
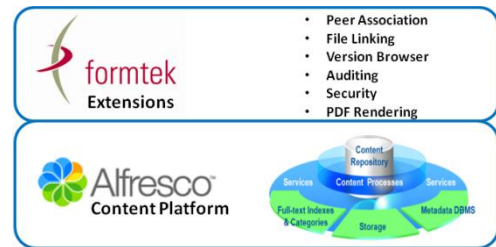

Formtek has six extensions available for installation on Alfresco. These extensions improve the functionality within Alfresco and satisfy the use cases for many Alfresco implementations.

- **The Formtek Auditing Extension** provides a complete audit log for every file and folder within Alfresco.

- **The Formtek File Linking Extension** allows a single document stored in Alfresco to be accessible from multiple locations without physically duplicating the document.

- **The Formtek Peer Association Extension** makes it possible for associations to be established between documents within Alfresco Share.

- **The Formtek Security Extension** offers more flexible security capabilities in addition to those available with standard Alfresco Share.

- **The Formtek Version Browser Extension** allows the user to select any older document version in Alfresco Share and view its Web preview and associated metadata, or download that version.

- **The Formtek PDF Rendering Extension** provides a PDF rendition of any Alfresco-supported file type. You may download this extension for free.

Formtek's extensions for Alfresco increase the capabilities of Alfresco implementations by extending the functionality of the standard Alfresco product.

- All extensions are available for use with Alfresco 3.4.x, Alfresco 4.0.x and Alfresco 4.1.x.

- Installation is easy via a downloadable JAR file.

- Subscriptions/Licenses are available for each with a discount for purchasing all extensions.

- Subscriptions come with access to Formtek Online Support.

- Contact us for more information.
